

ARCTIC PLANKTON

HOW TO USE ARCTIC PLANKTON

100% NATURAL ARCTIC PLANKTON

- for fish and corals
- high concentration, very productive

APPLICATION AND DOSAGE:

Consists of genuine Arctic Neomysis from Canadian glacial lakes, freshly caught and gently preserved.

- Suitable for all carnivorous and omnivorous marine ornamental fish.
- Ideal substitute for frozen food
- easy to use and dose
- no thawing necessary

As some contain larger neomysis (up to 30mm), we do NOT recommend dosing via dosing systems, as the hoses can become blocked.

Dosage:

- **Feed sparingly several times a day**
- Single feed

Contains:

- Neomysis

Ingredients:

- Neomysis 0.2 - 30 mm, water EC-approved antioxidants.

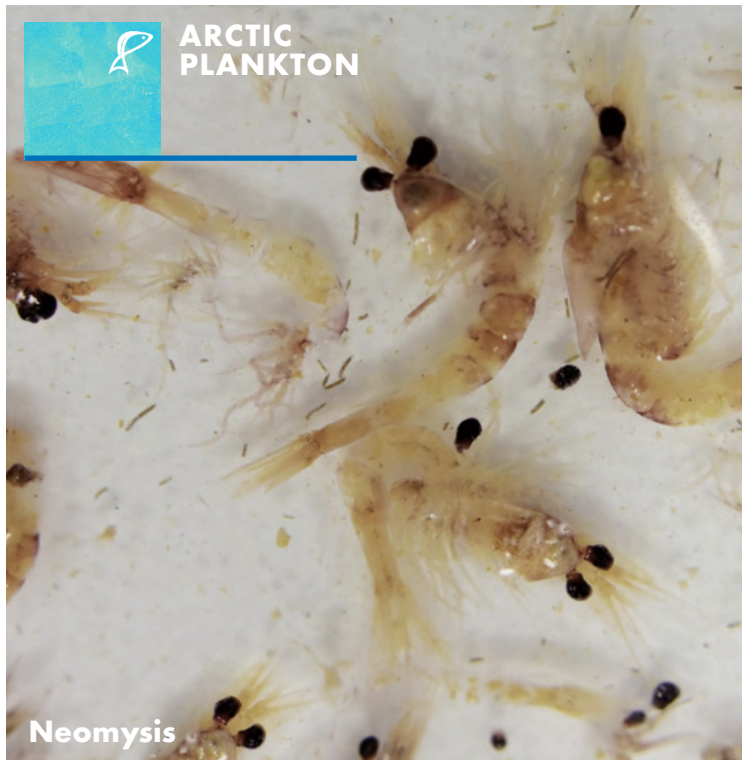

Analysis (from dry weight):

- Crude protein 14.6%, crude fat 1.73%, crude fibre 0.60%, crude ash 2.40%.

Best before date:

See date stamp on label

Once opened, store in the refrigerator and consume within three months!

Neomysis

WHY FAUNA MARIN ARCTIC PLANKTON?

Our Neomysis crabs, also known as rock crabs, provide a unique and natural food source specifically designed for the most demanding ornamental fish.

Why choose Neomysis?

Natural diversity: Neomysis crayfish are native to the nutrient-rich glacial lakes of North America and feed on a rich mixture of plankton and algae. This means they are naturally loaded with essential nutrients your ornamental fish need for optimum health.

Rich in protein: Our Neomysis food source is a „protein shake“ in a class of its own. Protein is essential for the growth, colouration and vitality of your ornamental fish. With Neomysis you can be sure that you are providing the best building blocks for the development of your scaly charges.

Fresh Harvest: Our Neomysis crabs are gently caught and quickly processed to maintain the freshness and quality your fish deserve.

Ideal frozen food replacement: Neomysis offers all the benefits of frozen food without the annoying drawbacks. Forget the thawing, mess and inconvenience. Our Neomysis food is convenient and ready to use, so your fish can enjoy a healthy and tasty meal.

Colorfulness and vitality: The natural carotenoids in Neomysis crustaceans promote vibrant colors in your fish and accentuate their natural colorfulness.

Rely on the exclusivity of Neomysis from Canadian glacial lakes and give your fish the best that nature has to offer.

SAFETY ADVICE:

- Not suitable for human consumption.
- For use in marine aquariums only.
- **Keep product away from children!**
